PROPERTY DESCRIPTION

629± Acres | Harper County, Kansas | Unit 16 Whitetail Country

Situated in the heart of Kansas' renowned Unit 16, this 629± acre tract offers a strong mix of ag production and prime wildlife habitat. With approximately 227 acres currently in tillable cultivation, the remaining balance consists of native grasses that provide excellent cover for wildlife and grazing opportunities for livestock.

Two main drainages run through the property, creating natural travel corridors for deer and offering year-round water supported by an active spring, an uncommon and highly valuable feature in this area. While the property isn't heavily treed, don't let that fool you. As seasoned hunters know, these big, open tracts with food, water, and quality native grass cover consistently hold some of the biggest whitetails in the region.

Beyond the deer hunting, this property also supports strong populations of pheasant and quail, making it an ideal setup for upland bird hunters looking for diverse opportunities in one location.

Located in a proven big buck neighborhood, this property is a rare chance to own a versatile piece of land that checks all the boxes: income-producing, loaded with wildlife potential, and unmatched in water access and layout. With the right vision, there's even more opportunity to enhance water retention and maximize its long-term value.
