LEGEND

- Set 5/8" x 30" iron pin with attached plastic cap mkd. B-G-A Survey Marker
- ⊙ Set Grant County Surveyor brass cap
- Found brass cap monument of record
- () Record bearing and distance G.L.O.
- [] Record bearing and distance Vernon Glaze Survey of 1913

NARRATIVE: This survey was performed at the request of Bob Kimberling to locate the South line of Section 33 and 34, T.12 S., R.34 E.,
A search was made of available records pertaining to this survey.
I commenced at the Southwest corner of Section 33 and retraced the Township line to the East for two miles. I found the South 1/4 corner of Section 33 and the Southeast corner of Section 34. I did not find any evidence of the South 1/4 corner of Section 34 or the Southeast corner of Section 33. After a diligent search for these corners, I established them on the Township line at single proportionate measure between the found corners at the South 1/4 corner of Section 33 and the Southeast corner of Section 34. I then established the East 1/16 and West 1/16 corners common to Section 34 and Section 3 at single proportionate measure as shown on this map.
See recorded Corner Remonumentation sheets for details of Section and 1/4 Section corners found and set and Bearing Trees taken; of 1/16 Section corners set and Bearing Trees taken.
