And there is roughly 62.8 acres of planted trees on this piece. There is a great trail system for riding ATV's to get to your blinds or access the entire piece of property. There are some larger trees and thicker brush on this side that could be deer hunted also. There is a list of the trees planted, in the pictures. Then there is the SW block which is a total of 234.5+- acres and consist of 3 large wetland pools with wells and water control release and there are several habitat mounds and roughly 60 acres of planted trees on this side. This piece has a little more slope and topography than the rest of the property. You would access this property from the east along County Rd 357.
